

Stuck at home? Learn to navigate On-line. The Coronavirus has been a major disruption to our lives recently and you may find yourself spending more time there. If so we have reduced the cost and will "Price Match" all of our On-line courses to meet the increased demand. You will have the added benefit of an Instructor local to you to help with any of the tricky stuff.

With RYA Interactive you can take the Essential Navigation & Seamanship course along with RYA Marine Radio.

For RYA Day Skipper theory, Coastal/Yachtmaster and Ocean On-line theory courses our recognised training provider of choice is Navathome who are an RYA recognised Training Centre specialising in this type of training. We have had a long association with Navathome and find that they more than meet our stringent quality standards and Student feedback is 100% positive. Our view they offer excellent theory preparation for students before taking our practical courses. We find students who are well prepared with their theory then get much more benefit from their practical course experience.

If you would like to know more then why not call 07802 208090 to talk to one of our Instructors.

The courses are fully interactive with great animated graphics in order to keep things fun. There are loads of quizzes throughout, giving immediate results in order to enforce the learning experience and you can use our Tuesday night sessions during Oct-Jan to consolidate some of the trickier stuff face to face.
